Dear Chubby:

Thank you very much for the information which you recently sent us concerning the above-named individual. This will certainly be helpful to us and will start a file which will lead to refusal of registration attempts.

I am enclosing a Confidential Record Sheet which I would like to have completed, so that we have all the personal information for identifying Mr. Rimer should he attempt to register in some other location.

We would also like to know if any charges have been placed against him that would lead to court action. This will be most helpful to us in completing our file and making certain that our information is strong enough for refusal of registration attempts in other locations. Thanks for your help.

Dear Paul:

Enclosed are affidavits and cover letter from the

council vice president for membership. Is this
sufficient documentation for denial of registration

Please let me know if I need to do anything more.
